UNLEASHING INNOVATION: AI AND AUTOMATION IN MICROBIOLOGY LABS

April 11, 2024

We are thrilled to extend our warmest invitation to you for an exclusive dinner event during the Canadian Association for Clinical Microbiology and Infectious Diseases (CACMID) conference, held in the beautiful city of Vancouver, British Columbia.

SPEAKERS & TOPICS

Dr. Lee Goneau
PhD, FCCM
National Director of Microbiology, Dynacare

Dr. Goneau will share insights into the intersection of automation and microbiological diagnostics at Dynacare, one of Canada's largest private medical laboratories. With a distinguished background in microbiology and immunology from Western University followed by postdoctoral training in clinical microbiology at the University of Toronto, Dr. Goneau went on to become Fellow of the Canadian College of Microbiologists. As the National Director of Microbiology at Dynacare, Dr. Goneau has led numerous initiatives, including implementation of SARS-CoV-2 testing, expanding the laboratory's molecular diagnostics portfolio, and leveraging automation to improve quality and patient care.

In his presentation, Dr. Goneau will delve into Dynacare's decision to embrace automation, its profound impact on laboratory operations, and include an overview of the implementation of Copan Diagnostics' automation solutions and their urine algorithm. Through experimentation and real-world application, Dr. Goneau will unveil the tangible benefits from Copan automation and A.I. experienced by Dynacare.

Dr. Susan Sharp
PhD, DABMM, FAAM
Scientific Director, Copan Diagnostics

A luminary in the field of clinical microbiology, Dr. Sharp brings over three decades of expertise to the forefront. Starting her career as a medical technologist, Dr. Sharp ascended to become the director of clinical microbiology at Mt. Sinai Medical Center in Miami Beach, FL, and Kaiser Permanente in Portland, Oregon. Dr. Sharp's contributions to the field have been recognized with accolades such as the ASM's Sonnenwirth laureate and the American Board of Medical Microbiology professional recognition award. She is also a past-president of ASM.

Join us as Dr. Sharp sheds light on COPAN's A.I. and shares intriguing insights from recent studies on auto release technology, promising enhanced efficiency, and accuracy in laboratory workflows.

DATE:
April 11, 2024

TIME:
6:30pm to 9:30pm

LOCATION:
Sheraton Vancouver
Wall Centre

We look forward
to hosting you.

**SEATING IS
LIMITED.**

RSVP NOW

This exclusive dinner event promises an evening of enriching discussions, and networking opportunities with esteemed peers in the field. You'll glean insights from the front lines of laboratory innovation and learn about new advances in Copan's pursuit of excellence in Microbiology laboratory automation and artificial intelligence.
